

La Foschia d`Estate

La Foschia d`Estate is an old farmhouse set in an olive grove with an olive tree lined private drive, which has been extensively restored and divided into two separate apartments. The first floor is occasionally lived in by the owner.

The ground floor is offered for rental on a weekly basis, and could comfortably sleep up to 8 people. The master bedroom with a four poster double bed has an ensuite bathroom. The other two bedrooms (double bed in one and three singles in the other) share a bathroom, and would be perfect for a family. There are two reception rooms with Satellite TV, DVD, and a plug for Ipod connection. The house also has an Internet connection. The sitting room sofa comfortably seats eight, as does the dining table. There is a woodburning stove in the sitting room for extra warmth, as well as underfloor heating for the winter throughout the house. The sofa in the dining room can accommodate an eighth person if required.

There is a large and fully equipped kitchen/breakfast room including table and chairs, gas hob, electric oven and freestanding family-sized fridge. The utility room has a toilet as well as a washing machine, and there are three loggias to provide shade. One loggia is attached to the main bedroom, and one to the kitchen, both providing complete privacy. The third loggia is at the front of the house, and opens directly on to the two living rooms. The loggia are suitable for eating outside.

The property has spectacular views over the Abruzzo countryside, with the mountains to the west, and the sea to the east. It is set in a completely rural environment, although at the bottom of the drive in the centre of the tiny hamlet is a very small shop, bar and restaurant that serves arrosticini (a type of kebab): a speciality of this part of Italy.

Atri is the nearest large town at about 10 minutes drive away, which has all the usual amenities of Theatre, churches, restaurants, supermarkets and banks and even a local market once/week.

The nearest beach is Pineto, which is about a 25 minute drive. It is a sandy beach, and extends for miles to both north and south. Much of the beach has bars, and it is possible to rent sunloungers and parasols by the day or the week. A large section of beach is unmanaged, and shade can be sought under a canopy of pine trees.

Please check availability on the website under reservation, and make a booking by email.
